

ADIB

Adib was born on September 03, 2003, in the Samangan province of Afghanistan. He was in second grade when he lost his father. His family could not support him to continue school so they enrolled him in the governmental orphanage of the Samangan province. He completed his secondary school at Ayenacha school. Then he was given a scholarship by a Samangan private high school and continued his education up to grade 11th. His favorite subjects are chemistry and mathematics. He is a good soccer player and played for the orphanage soccer team. Adib was among the first young boys to join the Scout Troop #35 of the Samangan orphanage in 2015. He has participated in several Scouting activities at the provincial level. His active participation in the Scouting program in his troop

made him an eligible candidate for the 24th World Scout Jamboree in West Virginia, USA, in 2019. He loves helping people, as he learned in Scouting that the most worthwhile thing is to try to put happiness into the lives of others.
