

Volunteer with ASRF

Afghan Student Liaison

Meet students in Afghanistan who are inspired and wanting to go out into the world to study! Help them improve their English, develop college application materials, practice for embassy interviews, get their documents in order, and other areas.

Help Scoutmasters

Coordinate with Scoutmasters who we wish to help move to safe locations and pursue a life out of danger.

Guidance for Students in the US

Help students in the United States with college guidance, financial literacy, cultural exchange, and any number of things that they need help with or want to discuss.

Join Our Advocacy Team

Help ASRF coordinate government relations and coalition building to make sure that our students in the United States are well protected in continuing their educational journey and that more may be granted the opportunity through a travel ban exemption for Afghan women students.

Help Meena Expand Her Underground Schools

Help coordinate logistics and brainstorming with Meena in our mission to help her revitalize and expand her underground school network.

Help Coordinate Sponsor Families and Support Communities

As situations change for students in the United States, they often need new sponsor families for school breaks. As people come to know and love our students, these are the communities that are integral to meeting their continuing needs.
